Geological Society of America Bulletin

Volume 97
Contents

JANUARY

1–10 Coarse-grained nonmarine volcaniclastic sediment: Terminology and depositional process . . . . *Gary A. Smith*

11–25 Evolution of the Ordovician through Middle Pennsylvanian carbonate shelf in east-central California . . . . *Calvin H. Stevens*

26–34 $^{40}Ar/^{39}Ar$ mineral dates from retrogressed eclogites within the Baltoscandian miogeocline: Implications for a polyphase Caledonian orogenic evolution . . . . *R. D. Dallmeyer and D. G. Gee*

35–47 Deformational history and regional tectonic significance of the Redwood Creek schist, northwestern California . . . .*S. M. Cashman, P. H. Cashman, and J. D. Longshore*

48–60 Blueschists and associated rocks in eastern Jamaica and their significance for Cretaceous plate-margin development in the northern Caribbean . . . . *Grenville Draper*

61–74 Eruptive history and structural development of the Toquima caldera complex, central Nevada . . . . *David R. Boden*

75–84 Buried ancestral drainage between Lakes Erie and Ontario . . . . *Jean-Jacques Flint and J. Lolcama*

85–96 "Fracture cleavage" in the Duluth Complex, northeastern Minnesota . . . . *M. E. Foster and P. J. Hudleston*

97–109 A fan dam for Tulare Lake, California, and implications for the Wisconsin glacial history of the Sierra Nevada . . . . *Brian F. Atwater, David P. Adam, J. Platt Bradbury, Richard M. Forester, Robert K. Mark, William R. Lettis, G. Reid Fisher, Kenneth W. Gobalet, and Stephen W. Robinson*

110–115 Southern provenance of upper Jackfork Sandstone, southern Ouachita Mountains: Cathodoluminescence petrology . . . . *Michael R. Owen and Albert V. Carozzi*

116–124 Dynamics of a northern barrier beach: Nauset Spit, Cape Cod, Massachusetts . . . . *Stephen P. Leatherman and Robert E. Zaremba*

125 Comments

FEBRUARY

129–141 Migration of volcanism in the San Francisco volcanic field, Arizona . . . . *Kenneth L. Tanaka, Eugene M. Shoemaker, George E. Ulrich, and Edward W. Wolfe*

142–146 Geochronology, structure, and basin-range tectonism of the Warner Range, northeastern California . . . . *Wendell A. Duffield and Edwin H. McKee*

147–155 Thermal and fluid regimes in the Bitterroot lobe–Sapphire block detachment zone, Montana: Evidence from $^{18}O/^{16}O$ and geologic relations . . . . *R. Kerrich and D. Hyndman*

156–161 Polyphyly in the Pentremitidae (Blastoidea, Echinodermata) . . . . *Alan S. Horowitz, D. B. Macurda, Jr., and Johnny A. Waters*

162–177 Origin and large-scale erosional features of glacial-lake spillways in the northern Great Plains . . . . *Alan E. Kehew and Mark L. Lord*

178–193 Thrust fault geometry of the Snake River Range, Idaho and Wyoming . . . . *Nicholas B. Woodward*

194–205 Relative sea levels of Japan from tide-gauge records . . . . *D. G. Aubrey and K. O. Emery*

206–212 Tectonic significance of mildly alkaline Pliocene lavas in Klamath River Gorge, Cascade Range, Oregon . . . . *Jeffrey R. Walker and H. Richard Naslund*

213–221 Detailed geomorphology and neotectonics of the Endeavour Segment, Juan de Fuca Ridge: New results from Seabeam swath mapping . . . . *Jill L. Karsten, Steve R. Hammond, Earl E. Davis, and Ralph G. Currie*

222–231 Paleoenvironments of the Upper Pennsylvanian Ames Limestone and associated rocks near Pittsburgh, Pennsylvania . . . . *Alan L. Saltsman*

232–240 Flow differentiation, phenocryst alignment, and compositional trends within a dolerite dike at Rockport, Massachusetts . . . . *Martin E. Ross*

241–254 Zircon U-Pb ages of super-units in the Coastal batholith, Peru: Implications for magmatic and tectonic processes . . . . *Samuel B. Mukasa*

241–254 Zircon U-Pb ages of super-units in the Coastal batholith, Peru: Implications for magmatic and tectonic processes . . . . *Samuel B. Mukasa*

MARCH

255–281 The mid-Cenozoic Challenger Rift System of western New Zealand and its implications for the age of Alpine fault inception . . . . *Peter J. J. Kamp*

282–295 Sedimentology and development of a passive- to convergent-margin unconformity: Middle Ordovician Knox unconformity, Virginia Appalachians . . . . *W. J. Mussman and J. F. Read*

296–304 Geology and geochemistry of the mafic and ultramafic intrusive rocks, Dadeville belt, Alabama . . . . *Michael J. Neilson and Stephen H. Stow*

305–323 External shapes, strain rates, and dynamics of salt structures . . . . *M.P.A. Jackson and C. J. Talbot*

324–328 Late Wisconsinan drift stratigraphy of the Saginaw Ice Lobe in south-central Michigan . . . . *G. W. Monaghan and G. J. Larson*

329–334 Late Wisconsinan drift stratigraphy of the Lake Michigan Lobe in southwestern Michigan . . . . *G. W. Monaghan, G. J. Larson, and G. D. Gephart*

335–345 Stable isotopes in late middle Eocene to Oligocene foraminifera . . . . *Lloyd D. Keigwin and Bruce H. Corliss*

346–353 Foraminiferal characterization of the Morrowan-Atokan (lower Middle Pennsylvanian) boundary . . . . *John R. Groves*

354–368 Structure and tectonics of the Hudson Valley fold-thrust belt, eastern New York State . . . . *Stephen Marshak*

369–378 Processes and rates of formation of Holocene alluvial terraces in Harris Wash, Escalante River basin, south-central Utah . . . . *Peter C. Patton and Paul J. Boison*

379 Comments

APRIL

381–387 Sigmoidal tidal bundles and other tide-generated sedimentary structures of the Curtis Formation, Utah . . . . *R. D. Kreisa and R. J. Moiola*

388–395 Subsurface configuration of the Orleans fault: Implications for deformation in the western Klamath Mountains, California . . . . *R. C. Jachens, C. G. Barnes, and M. M. Donato*

396–403 Ring-fracture eruption of the Bishop Tuff . . . . *Wes Hildreth and Gail A. Mahood*

404–409 Map location literacy—How well does Johnny Geologist read? . . . . *Glen K. Merrill*

410–420 Paleohydrology of pool-and riffle-pattern development: Boulder Creek, Utah . . . . *Jim E. O'Connor, Robert H. Webb, and Victor R. Baker*

421–427 Degradation of Quaternary cinder cones in the Cima volcanic field, Mojave Desert, California . . . . *John C. Dohrenwend, Stephen G. Wells, and Brent D. Turrin*

428–443 Time-averaging, taphonomy, and their impact on paleocommunity reconstruction: Death assemblages in Texas bays . . . . *George M. Staff, Robert J. Stanton, Jr., Eric N. Powell, and Hays Cummins*

444–458 The deltaic nature of Amazon shelf sedimentation . . . . *C. A. Nittrouer, S. A. Kuehl, D. J. DeMaster, and R. O. Kowsmann*

459–472 Geomorphic development of the Canadian River Valley, Texas Panhandle: An example of regional salt dissolution and subsidence . . . . *Thomas C. Gustavson*

473–485 Geology of the Northern Colima and Zacoalco Grabens, southwest Mexico: Late Cenozoic rifting in the Mexican Volcanic Belt . . . . *James F. Allan*

486–496 Absolute dating of dedolomitization and the origin of magnetization in the Cambrian Morgan Creek Limestone, central Texas . . . . *Virginia Loucks and R. Douglas Elmore*

497–504 A statistical analysis of bank erosion and channel migration in western Canada . . . . *Gerald C. Nanson and Edward J. Hickin*

MAY

505–515 An oxygen-isotope study of water-rock interaction in the granite of Cataract Gulch, western San Juan Mountains, Colorado . . . . *Peter B. Larson and Hugh P. Taylor, Jr.*

516–522 Tethys-marginal sedimentary basins in western Iran . . . . *Victor B. Cherven*

523–535 Sediment transport by wind: Toward a general model . . . . *Robert S. Anderson and Bernard Hallet*

536–554 Paleozoic evolution of southern margin of Permian basin . . . . *Charles A. Ross*

555–566 Geology and petrogenesis of lavas from San Cristobal Island, Galapagos Archipelago . . . . *Dennis J. Geist, Alexander R. McBirney, and Robert A. Duncan*

567–578 Alteration of detrital Fe-Ti oxides in sedimentary rocks . . . . *Sadoon Morad and Ala Adin AlDahan*

579–594 Contrasting magma types and steady-state, volume-predictable, basaltic volcanism along the Great Rift, Idaho . . . . *Mel A. Kuntz, Duane E. Champion, Elliott C. Spiker, and Richard H. Lefebvre*

595–602 Age and time span of emplacement of the Pliny Range complex, northern New Hampshire . . . . *K. A. Randall and K. A. Foland*

603–618 The Moho in the northern Basin and Range province, Nevada, along the COCORP 40°N seismic-reflection transect . . . . *Simon L. Klemperer, T. A. Hauge, E. C. Hauser, J. E. Oliver, and C. J. Potter*

619–625 Exploring a contagion model for karst-terrane evolution . . . . *Phillip R. Kemmerly*

626–637 Geochronology of augen gneiss and related rocks, Yukon-Tanana terrane, east-central Alaska . . . . *John N. Aleinikoff, Cynthia Dusel-Bacon, and Helen L. Foster*

638–647 Sources and provinces of late Quaternary sand on the East Texas–Louisiana continental shelf . . . . *Jim Mazzullo*

648–659 Hydrothermal minerals and alteration rates at Surtsey volcano, Iceland . . . . *Sveinn P. Jakobsson and James G. Moore*

JUNE

661–673 Cycle stratigraphy as a paleogeographic tool: Point Lookout Sandstone, southeastern San Juan basin, New Mexico . . . . *Robyn Wright*

674–687 Strain hardening and strain softening in fault zones from foreland thrusts . . . . *Steven Wojtal and Gautam Mitra*

688–702 Rift basins of the Long Island platform . . . . *D. R. Hutchinson, K. D. Klitgord, and R. S. Detrick*

703–710 Sedimentology of channelized turbidite deposits in an ancient (early Paleozoic) subduction complex, central Appalachians . . . . *Gary G. Lash*

711–716 A magnetotelluric transect of the Jacobsville Sandstone in northern Michigan . . . . *Charles T. Young and Ted R. Repasky*

717–736 Sangamonian(?) and Wisconsinan paleoenvironments in Yellowstone National Park . . . . *Richard G. Baker*

737–753 Mid-Cenozoic high-K calc-alkalic and alkalic volcanism in eastern Chihuahua, Mexico: Geology and geochemistry of the Benavides-Pozos area . . . . *Richard Gunderson, Kenneth Cameron, and Maryellen Cameron*

754–764 Caledonian ductile thrusting in a Precambrian metamorphic complex: The Moine of northwestern Scotland . . . . *David Barr, Robert E. Holdsworth, and Alan M. Roberts*

765–777 Magmatic, structural, and hydrothermal evolution of the Mineral Mountains intrusive complex, Utah . . . . *Dennis L. Nielson, Stanley H. Evans, Jr., and Bruce S. Sibbett*

778–786 Cleavage development in dolomite of the Elbrook Formation, southwest Virginia . . . . *Janet Schweitzer and Carol Simpson*

JULY

787–797 Age relationships and depositional environments of Paleozoic strata, northern Sierra Nevada, California . . . . *Judith L. Hanna and Eldridge M. Moores*

798–808 Contemporaneous calc-alkaline and alkaline volcanism at Sanganguey Volcano, Nayarit, Mexico . . . . *Stephen A. Nelson and Ricardo A. Livieres*

809–817 Sandstone petrofacies of the Yager complex and the Franciscan Coastal belt, Paleogene of northern California . . . . *Michael B. Underwood and Steven B. Bachman*

818–828 Late Pliocene climatic change and the onset of Northern Hemisphere glaciation as recorded in the northeast Atlantic Ocean . . . . *Paul Loubere and Kevin Moss*

829–839 Dating recent Hawaiian lava flows using paleomagnetic secular variation . . . . *Robin Holcomb, Duane Champion, and Michael McWilliams*

840–849 Additional paleomagnetic results from the Sierra Nevada: Further constraints on Basin and Range extension and northward displacement in the western United States . . . . *Leah S. Frei*

850–858 Aminostratigraphy of Quaternary shorelines in the Mediterranean basin . . . . *Paul J. Hearty, Gifford H. Miller, Charles E. Stearns, and Barney J. Szabo*

859–868 Late Cretaceous stratigraphy, deformation, and intrusion in the Madison Range of southwestern Montana . . . . *R. G. Tysdal, R. F. Marvin, and Ed DeWitt*

869–885 Effect of height and orientation (microclimate) on geomorphic degradation rates and processes, late-glacial terrace scarps in central Idaho . . . . *Kenneth L. Pierce and Steven M. Colman*

886–895 Characteristics of high-energy "meandering" rivers: The Canterbury Plains, New Zealand . . . . *M. A. Carson*

896–905 Erosion of tephra from the 1980 eruption of Mount St. Helens . . . . *Brian D. Collins and Thomas Dunne*

906–908 Structure of the Vakhsh fold-and-thrust belt, Tadjik SSR: Geologic mapping on a Landsat image base: Discussion and Reply
Discussion . . . . *Eli A. Silver and Nancy A. Breen*
Reply . . . . *William Leith and Walter Alvarez*

908–909 Petrologic, paleomagnetic, and structural evidence of a Paleozoic rift system in Oklahoma, New Mexico, Colorado, and Utah: Discussion and Reply
Discussion . . . . *Rob Van der Voo*
Reply . . . . *E. E. Larson*

AUGUST

911–931 Sedimentation in a tectonically partitioned, nonmarine foreland basin: The Lower Cretaceous Kootenai Formation, southwestern Montana . . . . *Peter G. DeCelles*

932–945 Geology of eastern New World Island, Newfoundland: An accretionary terrane in the northeastern Appalachians . . . . *Ben A. van der Pluijm*

946–952 Implications of migrating geoid anomalies for the interpretation of high-level fossil coral reefs . . . . *Patrick D. Nunn*

953–965 Timing of events during the late Proterozoic Beardmore Orogeny, Antarctica: Geological evidence from the La Gorce Mountains . . . . *Edmund Stump, J. H. Smit, and Stephen Self*

966–974 $^{40}Ar/^{39}Ar$ ages for plutons of the Monteregian Hills, Quebec: Evidence for a single episode of Cretaceous magmatism . . . . *K. A. Foland, Lisa A. Gilbert, Cheryl A. Sebring, and Chen Jiang-Feng*

975–985 Mechanical model for single thrust sheets Part I: Taxonomy of crystalline thrust sheets and their relationships to the mechanical behavior of orogenic belts . . . . *Robert D. Hatcher, Jr., and Richard T. Williams*

986–998 Stratigraphy of mid-Paleozoic island-arc rocks in part of the northern Sierra Nevada, Sierra and Nevada Counties, California . . . . *Richard E. Hanson and Richard A. Schweickert*

999–1011 Stabilization of a gravel channel by large streamside obstructions and bedrock bends, Jacoby Creek, northwestern California . . . . *Thomas E. Lisle*

1012–1023 Downstream effects of Flaming Gorge Reservoir on the Green River, Colorado and Utah . . . . *E. D. Andrews*

1024–1036 Geochemistry, petrogenesis, and tectonic implications of central High Cascade mafic platform lavas . . . . *Scott S. Hughes and Edward M. Taylor*

SEPTEMBER

1037–1053 Dynamics of orogenic wedges and the uplift of high-pressure metamorphic rocks . . . . . *J. P. Platt*

1054–1069 A fault-controlled trough through a carbonate platform: The Middle Cambrian House Range embayment . . . . *M. N. Rees*

1070–1082 Tectonic development, southeastern border of the Puna Plateau, northwestern Argentine Andes . . . . *Richard W. Allmendinger*

1083–1088 Billefjorden fault zone, Spitsbergen: Is it part of a major Late Devonian Transform? . . . . *D. L. Lamar, W. E. Reed, and D. N. Douglass*

1089–1097 Valley terraces and Huron basin water levels, southwestern Ontario . . . . *P. F. Karrow*

1098–1105 Provenance of late Wisconsinan (Woodfordian) till and origin of the Decatur sublobe, east-central Illinois . . . . *W. Hilton Johnson, David W. Moore, and E. Donald McKay III*

1106–1121 Late Quaternary deep-ocean circulation . . . . *Bruce H. Corliss, Douglas G. Martinson, and Thomas Keffer*

1122–1132 Paleontologic evidence for complex tectonic interlayering of Mississippian to Permian deep-water rocks of the Golconda allochthon in Tobin Range, north-central Nevada . . . . *John H. Stewart, Benita Murchey, D. L. Jones, and B. R. Wardlaw*

1133–1143 Heating, cooling, and uplift during Tertiary time, northern Sangre de Cristo Range, Colorado . . . . *David A. Lindsey, P.A.M. Andriessen, and Bruce R. Wardlaw*

1144–1155 Structures, textures, and cooling histories of Columbia River basalt flows . . . . *Philip E. Long and Bernard J. Wood*

1156–1162 Compositional variations caused by phenocryst sorting at Cerro Negro volcano, Nicaragua . . . . *James A. Walker and Michael J. Carr*

OCTOBER

1163–1176 North America's largest dinosaur trackway site: Implications for Morrison Formation paleoecology . . . . *Martin G. Lockley, Karen J. Houck, and Nancy K. Prince*

1177–1191 Pre-Acadian magmatic suites of the southeastern Gaspé Peninsula . . . . *Jean H. Bédard*

1192–1207 Effect of Oligocene volcanism on sedimentation in the Trans-Pecos volcanic field of Texas . . . . *Anthony W. Walton*

1208–1231 Cyclicity and paleoenvironmental dynamics, Rocknest platform, northwest Canada . . . . *John P. Grotzinger*

1232–1238 Chemical weathering in two Adirondack watersheds: Past and present-day rates . . . . *Richard April, Robert Newton, and Laura Truettner Coles*

1239–1249 Calcareous nannofossil paleoceanography of the Cretaceous Greenhorn Sea . . . . *David K. Watkins*

1250–1261 Structural styles of an accretionary wedge south of the island of Sumba, Indonesia, revealed by SeaMARC II side scan sonar . . . . *Nancy A. Breen, Eli A. Silver, and Donald M. Hussong*

1262–1269 Brachiopods as indicators of original isotopic compositions in some Palcozoic limestones . . . . *Brian N. Popp, Thomas F. Anderson, and Philip A. Sandberg*

1270–1278 Erosion profiles due to particles entrained by wind: Application of an eolian sediment-transport model . . . . *Robert S. Anderson*

1279–1280 Mesozoic paleomagnetism and northward translation of the Baja California Peninsula: Discussion and reply
Discussion . . . . *Gary Pischke, Gordon Gastil, and Monte Marshall*
Reply . . . . *Jonathan T. Hagstrum, Michael McWilliams, David G. Howell, and Sherman Grommé*

1281–1282 Relative sea levels of Japan from tide-gauge records: Discussion and reply
Discussion: Optimal eigenfunction expansions: A contradiction in terms . . . . *R. Erlich and I. Lerche*
Reply . . . . *David G. Aubrey and K. O. Emery*

1283–1284 Map location literacy—How well does Johnny Geologist read?: Discussion and reply
Discussion . . . . *Robert A. Hines*
Reply . . . . *Glen K. Merrill*

1285–1287 Seismicity, seismic reflection, gravity, and geology of the central Virginia seismic zone: Part 3. Gravity: Discussion and reply
Discussion . . . . *Wallace de Witt, Jr. and Kenneth C. Bayer*
Reply . . . . *M. R. Keller, E. S. Robinson, and Lynn Glover, III*

NOVEMBER

1289–1299 Origin of planetary wrinkle ridges based on the study of terrestrial analogs . . . . *J. B. Plescia and M. P. Golombek*

1300–1318 Regional correlation of Grande Ronde Basalt Flows, Columbia River Basalt Group, Washington, Oregon, and Idaho . . . . *Margaret T. Mangan, Thomas L. Wright, Donald A. Swanson, and Gary R. Byerly*

1319–1328 Character of the Alleghanian orogeny in the southern Appalachians: Part I. Alleghanian deformation in the eastern Piedmont of South Carolina . . . . *Donald T. Secor, Jr., Arthur W. Snoke, Kenneth W. Bramlett, Oliver P. Costello, and Ollie P. Kimbrell*

1329–1344 Character of the Alleghanian orogeny in the southern Appalachians: Part II. Geochronological constraints on the tectonothermal evolution of the eastern Piedmont in South Carolina . . . . *R. David Dallmeyer, James E. Wright, Donald T. Secor, Jr., and Arthur W. Snoke*

1345–1353 Character of the Alleghanian orogeny in the southern Appalachians: Part III. Regional tectonic relations . . . . *Donald T. Secor, Jr., Arthur W. Snoke, and R. David Dallmeyer*

1354–1366 A history of cleavage and folding: An example from the Goldenville Formation, Nova Scotia . . . . *J. R. Henderson, T. O. Wright, and M. N. Henderson*

1367–1381 Deposition and compaction of carbonate clinothems: The Silurian Pipe Creek Junior complex of east-central Indiana . . . . *Kathleen A. Devaney, Bruce H. Wilkinson, and Rob Van der Voo*

1382–1392 Quaternary displacement on faults within the Kentucky River fault system of east-central Kentucky . . . . *Roy B. VanArsdale*

1393–1409 Medals and Awards for 1985

DECEMBER

1411–1421 Kinematics of Tertiary structures in upper Paleozoic and Mesozoic strata on Midterhuken, west Spitsbergen . . . . *Harmon D. Maher, Jr., Campbell Craddock, and Kevin Maher.*

1422–1431 Dating the upper Cenozoic sediments in Fisher Valley, southeastern Utah . . . . *Steven M. Colman, Anne F. Choquette, John N. Rosholt, Gifford H. Miller, and D. J. Huntley.*

1432–1441 Fluvial origin of the lower Proterozoic Sioux Quartzite, southwestern Minnesota . . . . *D. L. Southwick, G. B. Morey, and J. H. Mossler.*

1442–1455 A transverse, thin-skinned, thrust-fault belt in the Paleozoic North Greenland Fold Belt . . . . *Stig A. Schack Pedersen.*

1456–1466 Aqueous geochemistry and diagenesis in the eastern Snake River Plain aquifer system, Idaho . . . . *Warren W. Wood and Walton H. Low.*

1467–1475 Episodes of vertical accretion and catastrophic stripping: A model of disequilibrium flood-plain development . . . . *Gerald C. Nanson.*

1476–1487 Timing and extent of Neogene tectonic rotation in the western Transverse Ranges, California . . . . *J. Scott Hornafius, Bruce P. Luyendyk, R. R. Terres, and M. J. Kamerling.*

1488–1503 Spring-related carbonate rocks, Mg clays, and associated minerals in Pliocene deposits of the Amargosa Desert, Nevada and California . . . . *Richard L. Hay, Robert E. Pexton, Timothy T. Teague, and T. Kurtis Kyser.*

1504–1511 Studies of the Idaho black shale belt: Stratigraphy, depositional environment, and economic geology of the Permian Dollarhide Formation . . . . *C. S. Wavra, P. E. Isaacson, and W. E. Hall.*

1512–1520 Geochemistry and tectonic setting of lower Proterozoic supracrustal rocks of the Pinal Schist, southeastern Arizona . . . . *Peter Copeland and Kent C. Condie.*

1521–1533 Reconnaissance geochemistry of the Lassiter Coast Intrusive Suite, southern Antarctic Penninsula . . . . *Walter R. Vennum and Peter D. Rowley.*
